

Live animals (AVI)

Maastricht Aachen Airport

Maastricht Aachen Airport is a strategically located cargo hub in the heart of Europe, serving the Netherlands, Belgium and Germany as a gateway for efficient air cargo transport. Its proximity to major European economic centers and seamless multimodal connectivity makes it an ideal choice for airfreight operations. It is known for its efficient operations and accessibility.

Key advantages

Why choose MST?

- Tailor-made solutions for every shipment
- 40+ years of experience in live animal handling
- Fully compliant with EU and international regulations
- Specialized services for all species — from rhinos to exotic birds

Compliance with Regulations:

The airport adheres to European and international legislation for the transportation of live animals.

Certifications

- IATA Live Animal Regulations (LAR)
- EU Border Inspection Point (BIP)

Specialized Facilities:

- Dedicated space for pet crates
- Safe, clean environment with 24/7 veterinary care
- New AnimalPort Netherlands (2024) with 26 stables (expandable to 32)

Core services & expertises

Key Partnerships

- Collaborates with leading cargo airlines and logistics providers to ensure reliable service.
- Works with freight forwarders to offer tailored solutions for every shipment.

Digital Innovation

- Investments in automated cargo systems improve efficiency and accuracy.
- Real-time tracking enhances visibility across the supply chain

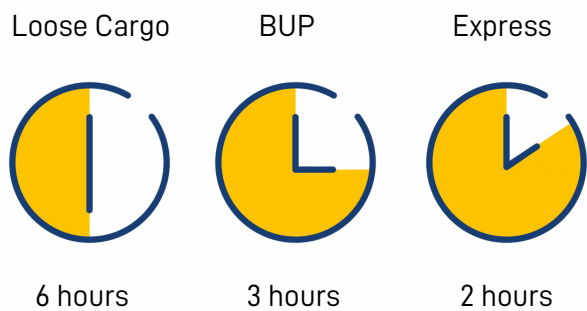

Specialized Cargo Handling

In addition to live animals, MST excels at handling a wide range of cargo, including:

- Temperature Controlled Goods: Pharmaceuticals, perishables, and chemicals.
- E-commerce: Efficient processing of high volume, time sensitive shipments.
- Oversized Freight: Industrial machinery, vehicles and aircraft parts.

Unbeatable cargo handling performance

Handling time ATA +

Transfer time to final destination
BUP

	Handling	Transfer	At destination ATA +
AMS	3 hrs	2,5 hrs	5, 5 hrs
LGG	3 hrs	0,5 hrs	3,5 hrs
FRA	3 hrs	3 hrs	6 hrs
CDG	3 hrs	4 hrs	7 hrs

Developments

Future expansions of the services

- Facility enhancements for animal care providers.
- Investment in the expansion of the Animal Hotel capacity.
- Development of customized services for specific animal transport needs.
